

EXPANDED LABORATORY MANAGEMENT SOLUTIONS

Ease your mind, your workload and your budget

Let us manage your referral laboratory testing

Your trial's success depends upon the quality of your data, no matter where testing is performed. More than ever before, clinical trials require specialized biomarker tests that are performed outside of the central laboratory. Selecting and managing labs, monitoring performance and ensuring quality are challenging, time-consuming tasks. Done improperly, these may increase your costs—and your risk of regulatory findings.

ELMS delivers

Expanded Convenience

A comprehensive, one-stop solution for all testing

Expanded Confidence

A team of professionals with decades of experience looking out for your data

Expanded Value

Freedom to focus your time and internal resources on drug discovery

We understand your science

By bringing together the scientific expertise of Covance's central laboratory and the diverse range of LabCorp testing solutions, you will benefit from an unmatched level of **access to more than 3,000 assays**—and the scientists who validated them. Special needs? While we can meet almost any testing need using either our central lab or the LabCorp Specialty Testing Group, our Expanded Laboratory Management Solutions (ELMS) team can work with nearly any lab in the world. No matter what testing you need, we select and qualify the optimal lab for your protocol's unique requirements.

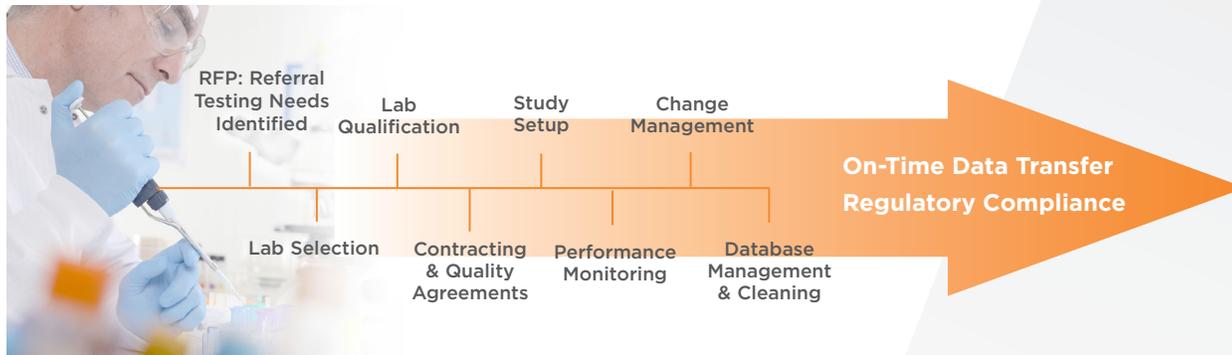

Save up to \$75,000 in referral lab management costs

We manage your testing as if it was our own—because often, it is. Using the power of LabCorp esoteric testing solutions, we can exercise more control over the process—without adding management fees. Outside of our Intra-Company Network, efficiencies and economies of scale still save you more than 50% of the cost compared to doing it yourself.

COVANCE
SOLUTIONS MADE REAL®

Take uncertainty out of your equation with Expanded Lab Management Solutions

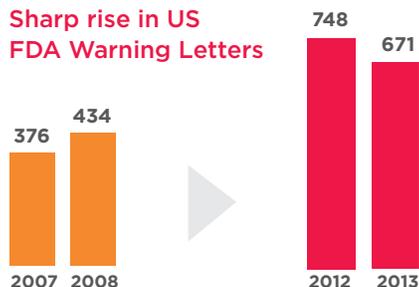

From identifying your testing needs to final data delivery, the ELMS team manages each step in the external testing process.

Exceptional data quality: On time, every time

Experience the unique combination of the most experienced central laboratory and the broadest array of biomarker assays in the industry—all managed to ISO 15189:2012 standards by the ELMS team.

Sharp rise in US FDA Warning Letters

Regulatory scrutiny is on the rise. More than ever, you need an experienced partner to ensure the success of your clinical program. Rest assured in our relentless pursuit of excellence, knowing that a dedicated team of professionals is looking out for your data integrity.

LEARN WHY BAD THINGS HAPPEN TO GOOD SAMPLES

View real-world case studies where ELMS uncovered and corrected problems such as improper validations and failure of labs to disclose methodology changes. Submit your data with confidence.
