Xcellerate® Monitoring Software as a Service (SaaS)

THE INDUSTRY’S FIRST GLOBAL, CENTRALIZED MONITORING SaaS SOLUTION.

Today’s clinical trials face many challenges in managing multiple data sets and identifying potential risks to quality and patient safety. Recognizing this urgent need, Covance created Xcellerate® Monitoring SaaS, the market’s only software solution with a comprehensive state-of-the-art data integration and analytics platform that allows you to:

- Access all your clinical trial data
- Apply powerful role-based analytics
- Resolve issues and make real-time data-driven decisions

Aligned with FDA and EMA guidance along with TransCelerate Risk-Based Monitoring (RBM) principles, this cloud-based platform is the first software-as-a-service that integrates and manages operational, clinical and master data. With Xcellerate Monitoring SaaS, Covance
handles all the implementation, private cloud hosting, management, training and support of this holistic RBM system, so you can reduce IT investments and concentrate on increasing the efficiencies in your trials.

**ONLY XCELLERATE MONITORING SaaS OFFERS THE COMPLETE VIEW OF YOUR TRIAL.**
