

EARLY PHASE DEVELOPMENT SOLUTIONS

Making every day of your journey count

With so many different regulatory requirements and scientific challenges in the early stages of drug development, it can be difficult to navigate a way forward, easily. Discover a clear path with Early Phase Development Solutions. It's a programmatic approach for meeting your drug development goals that teams you up with drug development leaders to prospectively plan and execute the required studies in an expedited way. By making every day of the journey count, Early Phase Development Solutions has helped hundreds of biotech firms reach their program goal up to 30 percent faster over the past three years.

BEGIN WITH THE END IN SIGHT

Start off on the right track

Your vision for your molecule defines your entire program. From your development team and strategy to your contracts and financing, everything is customizable to your requirements.

Stay on course

Keep up to date on the details and progress of your program with regular status updates on your program timeline and proactive reports on potential risks to your candidate's development.

Achieve your program milestone

Reach your clinical goal faster with an approach that eliminates white space in your early drug development timeline and streamlines your transition from nonclinical to clinical development.

COVANCE[®]
SOLUTIONS MADE REAL[®]

HOW FAR YOU GO IS UP TO YOU

Whether you plan to complete an IND/CTA-enabling program or you need to gain the clinical insight that a first-in-human (FIH) or proof-of-concept (PoC) study can provide, you can enjoy the journey with a dedicated team and a singular, cohesive strategy.

Real-world benefits of a time-tested approach

Join more than 225 biotech ventures that have experienced the real-world benefits of a programmatic approach over the course of the past three years.

PARTNERSHIP

A dedicated team that's with you for the entire journey

Collaborate with a Drug Development Leader and a Certified Project Manager at the helm of your program

Gain specialized expertise in nonclinical, clinical and regulatory, as you need it

De-risk your molecule development with a team that proactively monitors your program

CONTINUITY

A proactive strategy, from start to finish

Get an integrated development plan that minimizes time between studies

Stay up to date through regular communications with your team

Transition seamlessly from nonclinical into clinical development

VALUE

An integrated and streamlined approach that adds value to your asset

See your estimated total program timeline and cost up front

Select a flexible financial model that fits your goals

Reach critical milestone dates on time

Obtain valuable clinical insight by taking your program all the way through FIH or PoC
